

JSP & servlet

13강_Cookie

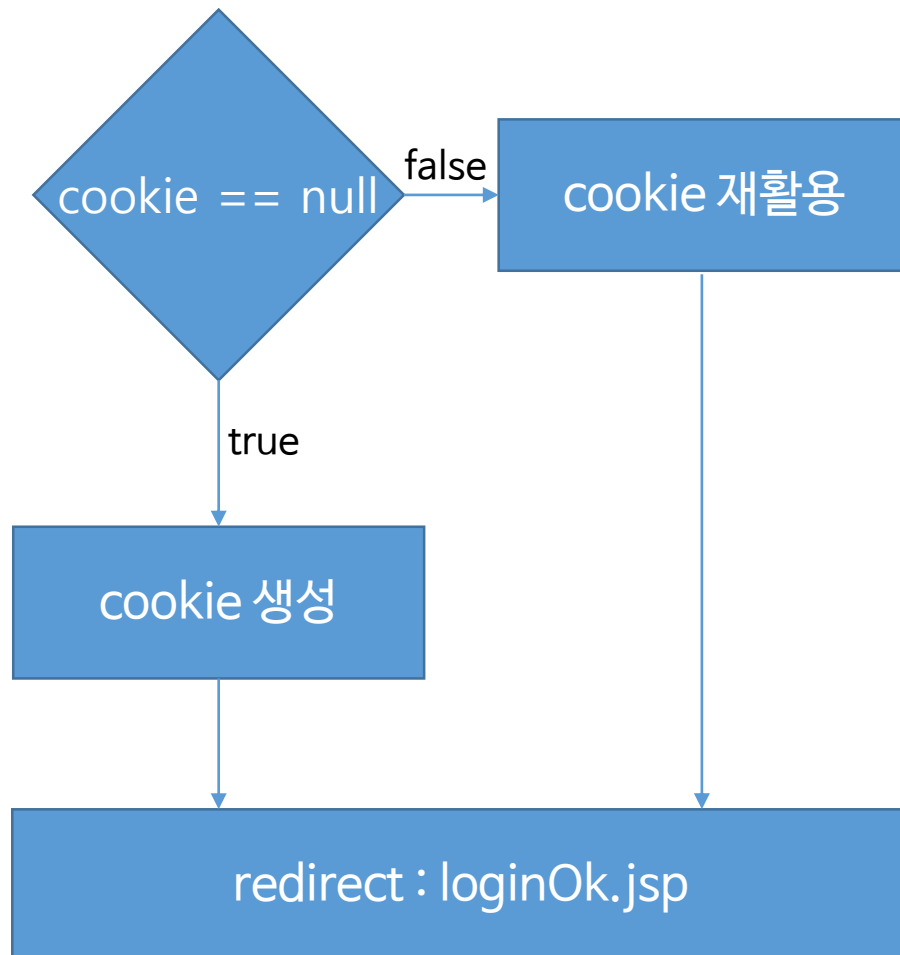

클라이언트와 서버의 연결을 유지시켜주는 방법으로 Cookie에 대해서 학습합니다.

13-1 Cookie란?
13-2 Cookie 구현

13-1 : Cookie란?

13-2 : Cookie 구현

```
Cookie[] cookies = request.getCookies();  
Cookie cookie = null;
```

```
for (Cookie c : cookies) {
```

```
    System.out.println("c.getName() : " + c.getName() + ",  
    c.getValue() : " + c.getValue());
```

```
    if(c.getName().equals("memberId")) {  
        cookie = c;  
    }
```

```
    if(cookie == null) {  
        System.out.println("cookie is null");  
        cookie = new Cookie("memberId", mId);  
    }
```

```
response.addCookie(cookie);  
cookie.setMaxAge(60*60);
```

```
response.sendRedirect("loginOk.jsp");
```
